Custom Products

What are Custom Products?

Parker – supplier of your wishes – your special is our standard!

Your idea is our Know-How!

Profit of the advantages of our Custom Products:

- Slogans like “single source” or “vendor-reduction” are getting more and more important in industry.
- worldwide availability
- Parker TFDE Custom Products is able to offer almost every type of connector, which is not to be found in our catalogues or price-lists.
- We produce one piece and upwards.

Following examples could be a suggestion, how your problems could be solved in the future.

Jump sizes

One connector can replace several combinations.

- to shorten assembly-time
- to reduce possible leaks and their costs
- to reduce stock

Extra-long connectors

to avoid long tubes
or adapter-combinations

Unconventional configuration of ends

tube and port end
eg: to connect metric and inch tube ...

Restricted orifice

orifice $\times 0,3$ mm
(technical clarification about length of reduced bore in accordance to material necessary)

Re-Work of standard connectors

according to customer-instructions and drawings
(shorter threads, bleed adapter, female thread port for test-points gauge connectors)

Brazed parts

for most unusual variations
procedure: silver-brazing

Manifolds

with fixing bores according to customer instructions

Filter Fitting

Also possible with your filters.
(We would ask you to let us know required dimensions of your filter)

Milled parts

for narrow spaces

Flange connectors

ISO 6162 (SAE J518),
according to customer instructions, drawings, etc.

Tubes and tube bends according to your specification possible on your request (incl. preassembled ends) – please let us know length, bend radia, etc.
